

EACR 20 SATELLITE SYMPOSIA

Sunday 06 July 2008

Wyeth

12.15 – 13.45

Salon Pasteur

Title: Targeting mTOR in Haematology & Oncology

Chair:

Sylvie Negrier

Co-Chairs:

Michele Milella

Bertrand Coiffier

Programme:

12:15	The Rationale for the mTOR Target	Speaker: M. Milella
12:45	mTOR Clinical Applications in Oncology	Speaker: S. Negrier
13:15	mTOR Clinical Applications in Haematology	Speaker: B. Coiffier
13:30	Panel Q & A	

Monday 07 July 2008

Applied Biosystems

12.15 – 13.45

Salon Pasteur

Title: Ultra high throughput and sensitivity in genome and transcriptome analysis for Cancer Research

Chair

Raimo Tanzi

Co-Chairs

Marco Cappelletti

Programme:

12.15	Exploring the hidden genome: small RNA discovery and profiling	Speaker: R. Wicki
12.45	Towards Sequencing of Whole Cancer Genomes	Speaker: M. Stratton
13.15	High-throughput miRNA expression profiling using minute amounts of input RNA - insights in neuroblastoma pathogenesis	Speaker: J. Vandesompele
