

Anne-Marie Baird

Organisation: Lung Cancer Europe (LuCE) www.lungcancereurope.eu

Country: Ireland

Mother tongue: English

Background

Dr Anne-Marie Baird was awarded a PhD in Cancer Research from the Department of Clinical Medicine, the University of Dublin, Trinity College in 2009. Her PhD thesis examined the role of hypoxia and inflammation in lung carcinogenesis. Since then Anne-Marie has continued to work in the lung cancer field and was awarded an International Association for the Study of Lung Cancer (IASLC) fellowship in 2012. She moved to Queensland University of Technology in 2014 to complete her fellowship and returned to Ireland in 2016. Anne-Marie is currently a Research Fellow based at St. James's Hospital, and holds Visiting Research Fellow status with the University of Dublin, Trinity College and Queensland University of Technology. On a personal level, Anne-Marie has also been affected by lung cancer, as both her Grandmother and aunt died from the disease. Anne-Marie is involved in lung cancer awareness and patient advocacy, and is an active member of the lung cancer social media (#LCSM) community. In conjunction with Lung Cancer Alliance, she brought the first 'Shine a Light on Lung Cancer' event to Ireland last year during lung cancer awareness month.

AREAS OF EXPERTISE:

In vivo and *in vitro* models of carcinogenesis and drug resistance

AFFILIATIONS:

Lung Cancer Europe (LuCE)

International Association for the Study of Lung Cancer (IASLC)

European Thoracic Oncology Platform (ETOP)

Cancer Trials Ireland

Irish Platform for Patient's Organisations, Science and Industry (IPPOSI)

HRB – Clinical Research Coordination Ireland (HRB-CRCI)

Women in Technology

COMMUNICATION SKILLS:

Lectured in the University of Dublin, Trinity College to both under and post graduate students

MEDIA CONTACTS:

Irish media – press, radio

OUTSIDE COMMITMENTS (e.g. service on other Boards/Committees):

IASLC Communications Committee; Chair of the IASLC social media sub-committee
IASLC Fellowship and Career Development Committee

PROFESSIONAL EXPERIENCE:

Translational Research Fellow (Lung, mesothelioma and prostate)
PhD, MSc and MD supervision
Teaching
